Building Type Changes

Sub-Area No. FA-BT-1 Old Building Type W. Proposed building type L APN 1043514700. Address Rockycrest Road, (south west corner of Rockycrest and south Mission Roads). Owner Chaffin. General Plan Land Use Designations: General Commercial

Sub-Area No FA-BT-2 Old Building Type F. Proposed building type K. APNs1041323500, 1041324300, 1041324400. Address, Old Stage Road (north west corner of E. Aviation and Old Stage Roads). Owners: Fallbrook Village Aviation LLC. General Plan Land Use Designations: Village Residential VR-15

Discussion: Property owner requests from representative Lee & Associates to Change the building type from "W" which allows no residential uses, to a staff recommended "L" to allow for mixed use on area NO.1. As the existing zone is C34 Commercial Residential Use Regulations, which is a mixed use zone, a building type allowing both

residential and commercial buildings should be instituted with the General Plan Update. This was an oversight from the Update and the building type should have changed back then in 2011. An additional request to change from "F" to "K" in a residential zone RV Variable Family Residential is on area No.2. This would be a more flexible building type to allow development of the parcels with an existing density of 15 from the General Plan Update. The building type of "F" would necessitate a subdivision of the property to reach full yield in density. The building type of "K" would allow other patterns of development which may not require a subdivision for development.

No additional dwelling units would be allowed under either scenario than what was already approved in the General Plan Update, the change in building type for each would allow for a more flexible pattern of development for the parcels as requested.
